

PREFERS HIS SAND IN A SIDE DISH IF ANY

We are fortunate in having as one of our regular customers at 100-Balto. Louis Rosenthal, nationally known sculptor, who praises the Thompson system.

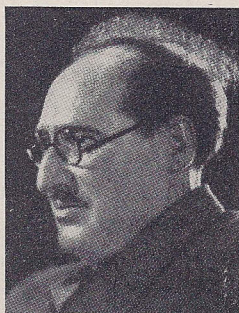

Mr. Rosenthal has achieved unquestioned recognition as the foremost sculptor of miniatures in the world!

He was chosen to create the Dickey medal commemorating the 100th anniversary of one of the earliest textile mills in the United States.

He has been feasted all over the world but confesses he likes the plain, well cooked meals at Thompson's the best.

Mr. Rosenthal says he left the last restaurant because they would not obey his request, that "Please when you serve spinach will you put the sand in a separate dish." Incidentally, he finds our spinach o. k.
